Notes from GPC Breast Cancer Cohort Discussions re: survey

1. Format
 - a. Skip patterns need clarification throughout
 - b. Need consistent prompts (e.g., always include “check all that apply”) where applicable
 - c. Consolidate similar items into the same section

2. Administration
 - a. If online, need ability to save and return to complete at a later time
 - b. If online, display progress indicator (e.g., a bar that shows % complete)
 - c. Consider video / online consent to supplement the initial consent process

3. Survey items/content
 - a. Pain after lumpectomy
 - b. Complementary and alternative medicine use
 - c. Alcohol use (Yes/No)
 - d. Dietary intake
 - e. Range of motion
 - f. Need open ended questions at the end of each section to capture experiences that were not covered in the close-ended items

4. Overall feedback
 - a. Focus on cardiovascular risk factors and outcomes (e.g., diet, nutrition, exercise, etc.)
 - i. Include items on knowledge of CV risk factors
